TURNOUT in the Summary Report: City and County of Honolulu is equal to the sum of all Partisan and Nonpartisan Ballots (including INVALIDS) cast or the total Special Election Ballots Cast at the precinct level, whichever is greater.

TURNOUT in the Summary Report: Statewide and County may not be equal to the total number of ballots cast because the Absentee Voting System (Statewide) and the Electronic Voting Machine Systems (City and County of Honolulu, D/P's 11-06, 12-02, 26-04, and 33-06) do not accumulate blank ballot counts to partisan or nonpartisan counts.

For contests with multiple seats available (Council Races for the Counties of Hawaii, Maui and Kauai), no comparability exists between the number of overvotes and blank votes cast in previous elections. The Absentee Ballot system tabulates overvotes and blank votes in a different manner than the Datavote Punchcard system. The system tabulates overvotes as a multiple of the number of seats available and tabulates blank votes as the difference between the number of seats available and the number of votes cast for the contest.
